

Make your connections easily and quickly with

TCC Solderless Connectors

Eliminate the tedious soldering of pins, the gear to do the soldering, and the worries that come from working with tiny pins!

With TCC Solderless Connectors it's simple to terminate your cables and get them connected quickly. There's no need to bring a soldering iron, no worries about extra butane or where the closest electrical outlet is.

It's simple: Just strip...

...insert...

...and crimp

Many convenient styles to choose from:

11-11L2-E-TGN

N male crimp, teflon insulation, gold pin, nickel plated body, solderless, for TCC cable group L2

11-11L6-EHK-TGS

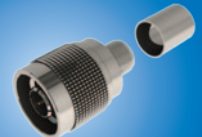

N male crimp, teflon insulation, gold pin, silver plated body, solderless, for TCC cable group L6

11-11TT1-EHK-TGN

N male crimp, teflon insulation, gold pin, nickel plated body, solderless, for TCC cable groups T&T1

11-11T-EK-TGN

N male crimp, teflon insulation, gold pin, nickel plated body, solderless, for TCC cable group T

11-13T-E-TGN

N male, teflon insulation, gold pin, nickel plated body, right angle, solderless, for TCC cable group T

19-03L2-E-TGN

SMA male crimp, teflon insulation, gold pin, nickel plated body, solderless, for TCC cable group L2

19-02FL1-E-TGN

SMA male, teflon insulation, gold pin, nickel plated body, right angle, solderless, for TCC cable groups F & L1

19-02FL1-E-RP-TGN

SMA male, teflon insulation, gold pin, nickel plated body, right angle, reverse polarity, solderless, for TCC cable groups F & L1

19-03FL1-E-TGN

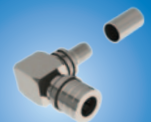

SMA male crimp, teflon insulation, gold pin, nickel plated body, solderless, for TCC cable groups F & L1

19-03FL1-E-RP-TGN

SMA male crimp, teflon insulation, gold pin, nickel plated body, reverse polarity, solderless, for TCC cable groups F & L1

22-02L2-E-TGN

QMA male crimp, teflon insulation, gold pin, nickel plated body, right angle, solderless, for TCC cable group L2
