

TCC INDUSTRIES INC.
The Connector Company

1.5~2.5GHz Signal Splitter

Low Loss
Low VSWR
for WiFi, PCS, and GPS
applications

When it comes to your multiple antenna or feed requirements TCC has you covered with our signal splitter. These are optimized for 2.4GHz operation and are perfect for wireless network systems as well as GPS and PCS installations. These units are constructed from high grade materials and feature a weather proofed enclosure so you can be assured of low insertion loss and reliability of operation even in the harshest of environments

Specifications:

Operating Frequency:	1.5~2.5GHz
VSWR:	<1.4dB : 1
Insertion Loss:	0.5dB
Impedance:	50 Ohms
RF Power Rating:	20W
Material:	Aluminum
Ports:	1 input, 2 outputs
Connector:	N Female
